

IEICE Information and Communication Technology Forum

September 10-12, Niš, SERBIA

Engineering/Fundamentals

Theory and Application of Mathematical Systems Sciences
Interdisciplinary Signal Processing
Non-linear Phenomena
Cryptography and Information Security
Coding Theory
VLSI Systems, Applications and Computer-Aided Network Design
Acoustics Engineering
Healthcare and Medical Applications

Information Processing

Audio Technology
Image Processing
Office Automation
Telemedicine Technology
Software-Defined Networking
Speech and Natural Language Processing
Visualization and Virtual Reality
Artificial Intelligence

Communications

Next-Generation Access Networks
Next-Generation Networking
Power-Line Communication
Wireless Communication and Networking
Optical Networks and Systems
Internet of Things
Green Communications
Smart Grids
Ubiquitous Communications

Electronics

Image and Signal Processing
Digital Coding and Filtering
Microwave Devices, Components, Systems and Applications
Analog and Mixed-signal Circuits
Low-Power Design
Embedded Systems
Consumer and Multimedia Systems
Biomedical/Bioengineering Circuits and Systems
